

Registration guide for SDQscore site (simple site for scoring paper SDQs)

Registration - <https://admin.sdqscore.org/New>

Enter an email address and click *Generate New AdminID* (we suggest a generic organisation email if you are with an Organisation that will have more than one user).

Agree Ok to the prompt and then note down your given AdminID & password.

Log in with your adminID & password at, <https://admin.sdqscore.org/Login>, click *Account Details*.

Complete the fields (include a contact email)
If you change your password you will be logged out, so make sure you remember it.
Click **Update account details**

Adding Credit – Your account must be in credit before you can begin scoring (US\$30 minimum).

You can copy the blue link and send it to a member of staff to make the payment on your behalf (credit will automatically be added to the system if purchased by credit/debit card or PayPal)

Or you can complete the payments on this page. **Click on Payment.** 30 USD will be enough to score 60 SDQ papers and have the reports as PDFs (120 to just view the reports on screen). Enter amount in US dollars.

Creating a user login – vital step!

Click the + button, agree OK, complete the fields > *Add new user*

Use the **UserID & password** you have created to login to the SDQscoring site, <https://sdqscore.org/SDQ> - see page 2

Export SDQscore will provide you with a spreadsheet showing all data gathered by the users. Set the Date range. Check the Full box if you want to see the score for each question (please note that the questions are ordered in binary as opposed to numerical order).
Help: provides information on export variables, column headings and codes
E.g. band codes (...ban): 0=average, 1=raised (slightly low), 2 = high (low), 3 = very high (very low). Informant codes: P=Parent, T=Teacher, S=self-informant (11+). Gender codes: 1=male 2=female.

SDQScore - The cost of transcribing the answers onto the scoring site to generate a report is US\$0.25. If you wish to print or download the report as a PDF this costs a further US\$0.25.

SDQ papers are available to download from our website at, <https://sdqinfo.org/>

Welcome to SDQscore
Mental health professionals' work can benefit from SDQplus assessments, using our new application called [SDQcohort](#). SDQcohort saves time, reduces transcription error and generates superior, multiple reports. SDQcohort has been designed specifically to aid scoring of large groups such as schools. It is suitable to be used in monitoring and analysis of outcome measures. SDQcohort training is recommended and provided free of charge.
[Contact us](#) If you wish to apply for SDQcohort training which we deliver online. More information about SDQcohort and SDQplus can be found at [http://sdqinfo.org/SDQplus](#).
All SDQ and DAWBA services are operating normally. Support staff are working as usual.

Click "Save & continue" to move to the next page.

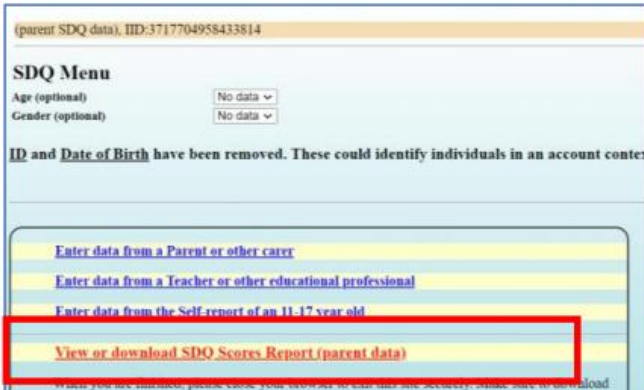

When you get to the final page you can click "other" and then type in the informant type.

Ensure you enter in a date of completion (if no date is on the paper either enter a good guess or put in the date you are scoring the SDQ).

If you wish you can now score an SDQ completed on the same child by a *different* informant type (charge \$0.25 per informant).

When you have finished you must click the red button **View or Download SDQscores Report (xxxxxdata)** and this will take you to the SDQ report (charge for each informant US \$0.25).

You now have the report on screen – extra charge for downloading/saving the report (US \$0.25).

Interpreting the scores: Score for overall stress (Total) = this is calculated by adding the difficulties subscale scores (emotion, behaviour (conduct), hyperactivity and concentration (hyper) and difficulties getting along with other children (peer). 18/40 for the parent informant & 22/40 for the teacher informant shown in the example report above.

Each of the difficulties subscales are scored out of 10 with 0/10 being the best score.

Kind and helpful behaviour (prosocial) is scored in reverse, with 10/10 being the best score.

The impact score (double-sided SDQs) evaluates if difficulties affect an individual's daily life and wellbeing (0/10 is the best score for self & parent informants and 0/6 for teacher informants).

For more information on how the scores are calculated and the band categories download the scoring sheet, <https://www.sdqinfo.org/>

Strengths and Difficulties Questionnaire

IID:3717704958433814

SDQ scores

Parent SDQ for 4-17 year olds

Score for overall stress	18	(17 - 19 is HIGH)
Score for emotional distress	4	(4 is slightly raised)
Score for behavioural difficulties	6	(6 - 10 is VERY HIGH)
Score for hyperactivity and concentration difficulties	4	(0 - 5 is close to average)
Score for difficulties getting along with other children	4	(4 is HIGH)
Score for kind and helpful behaviour	5	(0 - 5 is VERY LOW)

- **Total score** is the *Score for overall stress* (in the example highlighted in red = **18**)
- **Internalised score**, add *Score for emotional distress* to *Score for difficulties getting along with other children* (in the example, highlighted in blue, $4 + 4 = 8$).
- **Externalised score**, add *Score for behavioural difficulties* to *Score for hyperactivity and concentration difficulties* (in the example highlighted in orange $6 + 4 = 10$).

Interpreting the band scores

Difficulties	Strengths (prosocial)	Suggestions
Very High	Very Low	Severe difficulties, consider intervention
High	Low	Definite difficulties, consider intervention
Slightly raised	Slightly low	Slight difficulties, watchful waiting
Close to average	Close to average	All going well based on this SDQ, no action required
